

## **Position: UH-60 or UH-1H HELICOPTER PILOT**

**Redlands Airport, CA (REI)**

**Job Description:** Are you looking for your next, last job? We are currently looking for our next **Helicopter Pilot** capable of providing high-quality, safe, and reliable aerial crane and support services. High Performance Helicopters has been in business since 2005. We have an impeccable safety record with zero accidents or workplace injuries. What sets High Performance Helicopters apart from the competition is our commitment to safety and customer service. Our core values are centered around our customers and team members. Flexibility, adaptability, and communication are important strengths that allow H.P.H. to maintain a positive, safe, and enjoyable work environment.

Our objective is to add a qualified (UH-60 or UH-1H) helicopter pilot who possesses professional safety standards and an attention to detail that matches our high-level standards. We have been successful in lifting more than 100 million pounds of external loads, and we look forward to our next 100 million. We offer a competitive starting (base) salary plus (hourly) flight and on-site (daily) bonuses. Are you tired of being treated as a number? Are you looking for your last job with a high-quality, career-developing, smaller (family-owned) company? If so, please call us to discuss your final career move.

### **Qualifications Required:**

- Commercial F.A.A. Rotor-craft Pilot license and a valid U.S. Passport.
- A minimum of 250 (P.I.C. or S.I.C.) flight hours in a Blackhawk and 200 (P.I.C. or S.I.C.) flight hours with Bell 205/UH-1 helicopters, or similar.
- A positive attitude toward employees, supervisors, customers, and vendors.
- Personal flexibility regarding schedules and task assignments, especially with customers and projects, is essential to a successful career at H.P.H.
- Organizational skills, maintaining a clean work area, timely completion of paperwork, communication skills, and an ability to follow-through on all tasks.
- Valuable (common-sense) respectful character traits such as honesty and reliability, with a commitment to safety, sensitivity for customer privacy, and confidentiality regarding proprietary information.
- The ability to remain proficient in both UH-60 and UH-1 type utility helicopters.
- Piloting single and multi-engine air crafts offshore in variable conditions.
- 1500 total time, 350 hours minimum long-line vertical reference flight time is preferred.
- U.S.F.S. Helicopter Pilot Qualification card, firefighting awareness and familiarity, and Flight Safety training (or equivalent) are all preferred.

Our goal is to add a qualified helicopter pilot, possessing professional safety standards and an attention to detail that match our own high-level standards, to our team of high-caliber employees.

**Salary/Benefits:** We offer a competitive starting (base) salary plus (hourly) flight and on-site (daily) bonuses and the following benefits:

- Medical Insurance
- Dental Insurance
- Matching 401(k) Plan
- Paid Flight Training

**To Apply:** Please include a copy of your resume and cover letter.
